WETASKIWIN, ALBERTA, THURSDAY DECEMBER 8, 1927

V. C. French, Publisher

## Five Candidates For Three Vacancies in Aldermanic Seats

As a result of the nominations on Monday an election will be held on Monday next to select three aldermen to fill the vacancies which are created at the end of the year. Mayor Montgomery was elected by acclamation for the seventh consecutive term.

The two vacancies on the public school board were also filled without an election, as Messrs. Eli Moore and E. H. Thomas were both returned by acclamation.

An unusual situation has been created in the city, as there are no nominations to fill the vacancies on the Sacred Heart Separate school board.

**Aldermanic Candidates**

The following are the candidates for the office of alderman:

Frank H. Blackwell, nominated by C. E. Compton and R. E. Chandler; Herbert Brown, nominated by Geo. D. Wallace and H. R. French; Wm. Henry Cook, nominated by D. MacEachern and Dr. N. A. Johnson; Bruce D. Howatt, nominated by E. E. Chandler and L. C. Cooke; James Scott, nominated by A. A. Ellis and L. G. Kelley.

**HOTELMEN PLEASED WITH OPERATION OF ALBERTA LIQUOR ACT**

Declaring that they are absolutely satisfied with the Alberta Liquor Control Act as it now stands, members of the Alberta Hotel Association, in an annual convention on Wednesday voted down three proposed amendments to the Alberta Liquor Control Act.

The convention then passed a vote of confidence in R. D. Bingham, commissioner of the liquor control board, and his staff for the able manner in which the act was being administered throughout the province.

The four resolutions in brief were: "That bottled beer be sold of licensed premises for consumption in places other than licensed premises;" "That the act be amended giving hotels the right to serve beer with meals;" "That the present existing hours for the sale of beer by the glass be extended;" "That the convention, after a spirited discussion, also passed a resolution asking the government to endeavor to restrict the sale of 'Stern' or canned heat as it is commonly known, or as an alternative compel the manufacturers to change their formula so as to make the stuff unfit for human consumption."

It was declared that the wholesale drinking of the juice squeezed from canned heat was undermining the health of scores of persons addicted to the habit, and they believed the situation so serious that some government action should be taken.

Officers for the coming year were elected at the close of the afternoon session. Daniel F. Whitney, of Calgary, was re-elected president, and W. J. Conrad, of Medicine Hat, vice-president. The following directors were also elected: Tom Longworth, Edmonton; Bob McDonald, Edmonton; R. T. Noble, Edmonton; C. Smith, Wetaskiwin; B. Metcalfe, Lethbridge; G. O. Rowe, Lethbridge; J. Majka, Canmore; J. Trautwein, Drumheller; Charles Trautwein, Calgary; W. Cummings, Calgary.

The convention concluded Wednesday evening with a banquet at the Palliser hotel, at which the delegates were the guests of the Alberta Brewers' Association.

It was decided that the next convention would be held in 1928 at Lethbridge, and would last for two full days.

**YOUNG PEOPLE'S CLUB ENJOY SUPPER**

The Young People's Club of the United Church held a bean supper on Friday, December 2. The hostesses were Mrs. Paton and Mrs. Vikers. About 20 members of the club were present. The program consisted of a singsong, speeches by Mr. Allen, Morgan French, James Paton, Kathleen Ott, Jennie Moore and Rev. Eliott, and a number of interesting contests.

The club meets every Sunday afternoon in the institute rooms.

**THE TIMES MAKES ANOTHER IMPROVEMENT**

During the past week, The Times replaced the newspaper press, which has served its purpose for many years, with a machine which is much faster and better in every way. With this improvement, we are now in a better position to give the people of this city a district a service which has hitherto been impossible. The current issue is printed on the new machine.

REV. P. C. WADE TO SUCCEED REV. D. D. MACQUEEN

The Lord Bishop of Edmonton has announced that Rev. P. C. Wade, now rector of Athabasca, has been offered and accepted the appointment to Wetaskiwin, in place of Rev. D. D. MacQueen, who leaves for Calgary the first week in January.

Rev. P. C. Wade is an ex-serviceman, being in the R.A.F. during the war. He was ordained to the sacred priesthood shortly after the war and has served in Port Moody and Powell River, B.C., as well as his present charge at Athabasca.

The new vicar and his wife hope to arrive in Wetaskiwin about Feb. 15. The people of Wetaskiwin are fortunate in that the Bishop has been able to secure such a suitable successor to Rev. D. D. MacQueen in so short a time, and it is to be hoped that Rev. and Mrs. Wade will be welcomed to the community and that under his leadership and guidance the innumerable church members will flourish and witness to the power of the Gospel in this community.

Representatives from the British dominions and colonies attended and saw the fruits, spices and foodstuffs from their home lands weighed, measured, mixed and finally put to test for the hours on the huge range of the Mansion House kitchen.

The well-boiled delicacy will be turned over to the Earl of Meath, founder of the British Empire Day movement to Sir Charles Batho, the lord mayor of London, for safe keeping.

When Christmas approaches, the pudding goes in state to Buckingham Palace. However, the King may not eat it. He gets as many Christmas puddings as presidents of the United States get Thanksgiving turkey.

One pudding is kept for the palace and the others go to orphan homes and other institutions. Old England furnished beer and bread crumbs for the pudding, while the rest of the ingredients came from 12 overseas dominions and colonies. The full recipe of the pudding mixed at the mansion house today follows:

Five pounds of currants from Australia; Two pounds of sultanas from Australia; Three pounds of stoned raisins from South Africa; Four pounds of minced apples from Canada; Five pounds of bread crumb from the United Kingdom; Five pounds of beef suet from New Zealand; Two pounds of cut candied fruit from South Africa; Two and a half pounds of flour from the United Kingdom; Two and a half pounds of Demerara sugar from the West Indies; Twenty eggs from the Irish Free State; Two ounces of ground cinnamon from Ceylon; One and a half ounces of ground cloves from the East Indies; One and a half ounces ground nutmegs from the Straits Settlements; One teaspoonful pudding spice from India; One gill of brandy from Cyprus; Two gills of rum from Jamaica; Three quarters of old beer from England.

**W.I. GIRLS' CLUB**

The regular meeting of the Women's Institute Girls' Club was held in the institute rooms on Wednesday, Nov. 30, at 8 o'clock. The president, Doris Hanna, occupied the chair. After the regular business was concluded, very interesting papers were read by Jennie Moore and Kathleen Kelley on "Immigration and Colonization in the Surrounding Districts." These papers consisted of reports from various school teachers as to the number of foreign children, their ability to learn in school, their conduct, ways of living, etc. Information from Mr. Bear revealed the number of children of foreign parentage at Brightview, Mill, Hay Lakes, etc. Also the information that during the summer months there arrived in Canada 2574 Germans, 6365 Germans, 5167 Poles, 644 Russians, 799 Scandinavians, 2553 Slavs, and many others.

The previous meeting's program consisted of a paper on the life of "Ignace J. Paderewski," by Kathleen Ott. The next meeting will be on Tuesday, Dec. 13. Papers on "Education and Better Schools" will be given by Doris Hanna and Laurette Vikers. Members of the stringed instrument orchestra are asked to attend practices. Please note that only institute members can belong to the orchestra.

**SHAREHOLDERS' MEETING**

The annual meeting of the shareholders of the Wetaskiwin Cooperative U.F.A. was held on November 29, with a good attendance. The reports showed the company to be in a first-class financial position. Dinner was served at the noon hour to the directors. It was reported by those present that W. Irvine, M.P., was unable to be present as he had car trouble en route and missed the train at Lacombe.

Get your commercial printing done at The Times Office.

Look at the label on your paper

## City Council

A regular meeting of the City Council was held in the Council chambers on November 29th, all members present except Ald. Paton.

Messrs. Dan Anderson, Louie and Hans Wallin were present and asked Council for an increase in wages of \$10 per month. After considering their request the matter was laid over.

Mr. Fred Kellner interviewed Council asking what progress had been made in the Westside for the lots and streets adjoining the Moore and Kellner acreage. This matter was left in abeyance until a report is brought in.

A resolution urging the Federal government to co-operate with the Provincial government in the stabilizing of conditions in connection with the coal industry was received from the City Council of Edmonton and read. The resolution of Edmonton Council was fully endorsed and a resolution was passed by the Council accordingly.

**School Notes**

Some time ago we gave a brief outline of the nature of the new course of studies in the high schools of Alberta. Before we made it to the twenty-one units of credit required for successful completion of Grade XI. In the first year's work, six subjects are compulsory and two optional, so that a student who passes in all these, has eight credits out of the required twenty-one in Grade X. There are five compulsory units, viz. literature, composition, art, history and physics. In addition French and algebra are offered, seven in all. This is the second half of Grade IX. Latin is also being taught in Grade X, but some change in this part may be adopted in the future. The outline refers to the Normal Entrance Course. A student who is taking the Matriculation Course, and who does not intend to attend Normal, is not required to take art. Agriculture, which is an optional course in Grade X, is not at present taught in this school, but we intend to offer this as one of the optional courses in future, as we feel that it is not only a subject which gives considerable interest and enlightenment to students, but one which is particularly suitable to the student living in a province where the industry is agriculture. The student who at the end of the second year in high school, is successful in obtaining at least fourteen credits (units) has a very good chance of completing the twenty-one units the following year. Parents should enquire into the present standing of their boy or girl and satisfy themselves that the student is doing as much as he should.

It is a regrettable fact that a number of the boys attending school, both public and high, have become too familiar with the habit of smoking cigarettes. We make no apology for offering our deep disapproval of this habit. The boy (or girl, should such there be) who uses tobacco, particularly in this form, cannot possibly do his best work either physically or mentally. He is cutting down on his power of learning, and we should like to state our attitude regarding such student. It is this: We shall use our personal influence to discourage these students from using cigarettes, explaining the adverse influence upon their school work, and assist them to overcome the habit, should they decide to do so. Should they, however, refuse to improve their own chances and thereby require extra effort and energy on the part of the teachers, we feel that instead of devoting special attention to their behalf, we would be justified in giving them the degree to those students who are making a determined and honest effort to fit their body and mind for more efficient work. We can not too strongly advise those parents concerned to use every means in their power to help their boy overcome this serious habit.

**ELKS ELECT OFFICERS**

At the regular meeting of the B. P. O. E. held in the Elks' hall, the following officers were nominated and elected for the ensuing year:

Exalted Ruler, B. D. Howatt; Leading Knight, J. A. Hay; Loyal Knight, H. A. Murray; Leading Knight, H. B. Burrell; Inner Guard, E. Merner; Outer Guard, J. W. Scott; Secretary, C. D. Enmar; Treasurer, R. D. O'Neil; Esquire, Earl Lindskog.

The building program is under consideration and is progressing favorably.

Farmer (to one of his laborers who had come home after his first training in the militia): "Which would you rather be, a soldier or a farm hand, Paddy?"

Paddy: "A soldier, of course."

Farmer: "And why so, Paddy?"

Paddy: "Well, you see, you'd be a long time working for a farmer before he'd tell you to stand at ease."

**Weddings**

**NANCE-EIKERMAN**

A quiet wedding was solemnized at the Manso, Wetaskiwin, on Thursday, December 1, at one o'clock, when Elsie Dorothy Marguerite Eikerman, of Drumheller, was united in marriage with William Theodore Nance, of Irricana. The bride looked very charming in a gown of blue georgette, and was accompanied by her sister Anna. The groom was ably supported by his friend Ernest George Tyson of Slave River. The ceremony was performed by Rev. A. L. Elliott.

The happy couple left on the afternoon train for Calgary, and after a short trip will make their home in Irricana.

## WOMEN'S INSTITUTE TO HOLD SPECIAL MEETING

A special meeting of the Women's Institute will be held in the club rooms on Tuesday, Dec. 13, at four o'clock, for the purpose of discussing a home nursing course. The lessons to be given are as follows:

1. Introduction, Personal and home hygiene; 2. The bedroom in health and sickness; 3. The signs of sickness; 4. The care of the patient; 5. Feeding the sick; 6. Treatments; 7. Communicable diseases; 8. Emergencies and slight ailments; 9. Maternity nursing; 10. Infant care; 11. The feeding of infants and children; 12. Food needs of adults.

Should a class be formed, Mrs. Craigen, matron of the hospital, has kindly consented to act as instructor. All W.I. members and others interested in this course are invited to be present. The charge for the twelve lessons is \$1.00.

**Town Topics**

Don't forget the annual meeting of the city which is to be held in the U.F.A. hall on Friday night of this week.

The Ladies' Aid sale to be held in the Swedish Baptist church to-night, has been postponed to Monday, Dec. 12th, at 8 p.m.

The next meeting of the Order of the Royal Purple will be held on Monday evening next, when the nomination and election of officers will take place.

Mayor Montgomery and Mr. Craig left for Vancouver a few days ago where they will attend the exhibition. They have an exhibit of faxes, and hope to bring home the lion's share of the prize money.

The annual Christmas tree of the United Church for the primary department of the Sunday school will be held Monday, Dec. 14, at 4 p.m., and for the other departments on Tuesday, Dec. 20, at 7:30 p.m.

Stine-Drover are making an extensive alteration to their garage by having the front of the building fitted up as a show room for new cars. When completed, the entrance to the work room will be made from the rear.

The W.C.T.U. members are asked to bear in mind that the next meeting will be devoted to hospital cheer. All members are asked to meet in the United Church on Thursday, Dec. 15, at 3:30, and bring delicacies with which to carry out the program.

A very enjoyable evening was spent at the home of Mr. and Mrs. Theo. Lahti, six miles north-east, on Saturday evening, the occasion being the celebration of the twenty-first anniversary of the birthday of their son, Gwynne. Games and music were indulged in and a delightful time was spent.

The fame of the "Eyes of Love" troupe has been spreading far and wide. A pressing invitation to play in Lacombe on Friday evening was declined with regret on account of the illness of the "leading lady" Miss Geneva Jeckelme. The company is "hooked" to appear before Ponoka footlights early in January.

At the annual meeting of the Amateur Athletic Union of Canada, held in Edmonton last week, and attended by about fifty delegates from all parts of Canada, Mr. B. W. Bellamy of this city, was re-elected vice-president of the organization for a third term. A banquet on Saturday evening he was presented with a beautiful gold medal in recognition of his services as president of the Alberta Branch for the past two years. In the convention Mr. Bellamy was chairman of the registration committee, a most important one, which dealt with over seventy applications for re-instatement of athletes to amateur ranks.

**C.W.L. BAZAAR**

The C.W.L. Bazaar which took place on Nov. 30, proved a most successful undertaking. The net amount realized was \$608.24.

The articles on which tickets were sold were won by the following: Mr. D. Simmons, ticket No. 103; Mrs. T. L. Bourque, Mr. A. Blain, Edmonton, and Mrs. P. A. Miquelon, blazer, No. 28, 25 and 30; Mrs. Fred Bourque, dinner gown, No. 90; Mrs. S. Jackson, cushion, No. 70. Mrs. H. Brown got the box of candy for the closest guess, 72, the correct number being 90. Mrs. A. M. Miquelon, while 19 of the correct number of grains of wheat in the glass, which was 6381, and won the prize donated by Mr. P. J. Kuester. Mr. H. J. Montgomery was declared Senator and became the possessor of the wicker chair.

Rev. W. Walravens and the members of the C.W.L. and of the parish as a whole, extend their sincere thanks to all who contributed in any way to the bazaar and thus made it possible to realize this very substantial amount.

## G. M. James Named President of Kiwanis for the Ensuing Year

The weekly luncheon of the Kiwanis Club took the form of a business meeting Tuesday evening, when the officers for the year were elected. The President—G. M. James.

Vice-president—W. H. Odell. Secretary—To be chosen by directors. Treasurer—W. Barry. District Trustee—J. E. Fraser. Directors—M. Schrieffer, E. B. Williamson, C. W. Walla, R. J. Grant, E. R. Rasmussen, C. W. Niles and J. V. Somers.

The reports of the committees showed that good work had been done during the past year. It was decided to co-operate with the other organizations in dispensing Christmas cheer again this year.

**BATTLE RIVER W.M.S. ELECT OFFICERS**

The annual meeting of the Battle River W.M.S. was held at the home of Mrs. H. L. Miller on Thursday, Dec. 1st. The president, Mrs. Arnold, presided and conducted worship. Rev. Elliott was present and gave an address on the work of the Women's Missionary Society.

Mrs. E. W. Wilson reported on the year's work of the society, showing that the financial allocation had been fully paid, a parcel of clothing and quilting material had been sent to the teaching deaconess, Miss Caspey, laboring among the new Canadians, and that a shower of Christmas handkerchiefs was being collected to send to Wahbat.

A very pleasing feature of the year's work was the granting of a life membership in the W.M.S. to Mrs. C. R. Shantz.

The officers elected for the ensuing year were: President, Mrs. J. Arnold; vice-president, Mrs. C. R. Shantz; secretary-treasurer, Mrs. E. W. Wilson.

**COARSE EASILY AVAILABLE ON APPROVED LAND**

Calgary, Dec. 2.—Any man with farm land in districts where that security is approved can borrow all the money he requires at reduced rates of interest, and for the first time in many years trust and investment companies are advertising money to loan on farm lands in Alberta, declared Hon. J. F. Lymburn, attorney general, in an interview here today in which he stated A. B. Hogg, Lethbridge, for his speech before the Board of Trade conference when the Debt Adjustment Act, Land Titles Act, and the Alberta and the Extra-Judicial Seizures Act, were severely criticized.

"An address such as that, broadcast throughout Canada, will do more to wreck the credit and borrowing power of the people of this province than any of the legislation criticized will do," said Mr. Lymburn. "It is true that in theory Mr. Hogg's indictment looks formidable, but the facts are that the mortgage companies notwithstanding this criticism, are today lending money throughout the length and breadth of Alberta, except in those districts which are blighted by their loans on account of drought or other natural causes."

Hon. Mr. Lymburn stated that several of the loan companies doing business in the province were working very closely with the Debt Adjustment Act, and that this co-operation was resulting in the liquidation of loans which were proving difficult both to the borrower and the lender.

Changes to the Extra-Judicial Seizures Act were already being considered by the government, the attorney general stated, but he did not think there would be changes in the other acts mentioned.

**THREE THOUSAND VICTIMS OF FLOOD IN ALGIERS, REPORT**

New York, Dec. 2.—Between 2,000 and 2,500 natives and 250 Europeans were killed in Algiers floods, Governor-General Violette of Algiers reported today.

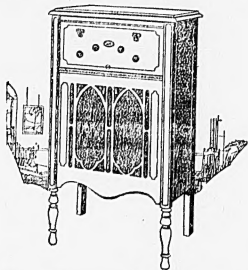

The property loss may total \$42,000, 800 in an area of 2,500 square kilometers, he said.

A wide area, centring at Oran, Algeria, was inundated last week as a result of rains which continued for 48 hours.

**EDMONTON FAIR MANAGER DEAD**

Edmonton, Dec. 3.—William J. Stark, manager of the Edmonton Exhibition Association for the past decade, and famous judge of light horses, passed away at 10 a.m. today in a Chicago hospital. He was taken ill when attending the International show just two days ago.

SPLENDID STATEMENT OF  
IMPERIAL BANK OF CANADA

The annual statements of our chartered banks may be accepted as a true index of business conditions which have prevailed in the country over the previous 12 months. We have learned that Canadian bankers in their annual addresses to the shareholders generally paint a fairly dependable picture of the coming year, and so give them interested in business enterprises a course that can, with judgment, be safely followed.

The address of Sir James Woods, vice-president of the Imperial Bank of Canada, at the 53rd annual meeting of shareholders was notable in several particulars. He covered in a very specific way the operations of the agricultural and of the development produced in mining, water power and in a number of domestic industries, together with interesting statistics on Canada's foreign trade and its future possibilities. It was evident throughout that Sir James has given careful study to the course of Canada's development during the last twelve or fifteen years, and has every confidence in the greater development which will take place within the next twelve years.

The address contained such a volume of interesting and informative material that it should be carefully read by every business man within Canada. Indeed, its circulation in a wider field would be of the greatest benefit to the country.

Following the vice president, the General Manager, Mr. A. E. Phillips, reviewed the bank's statements which, it is of moment to say, is the best statement in the bank's history. During the year, the total assets grew from, in round figures \$132,000 to \$139,000; deposits from \$100,000 to \$109,000; liquid assets from \$50,000,000 to over \$57,000,000 and profits from \$1,265,000 to \$1,387,000. Referring to the liquidity of the bank's position, Mr. Phillips said: "Turning to the asset side of the statement during the year the statement was put into effect whereby the statements for all clearing houses are made daily in one amount in Montreal. This will probably enable the banks as a whole to carry less of the reserve in actual cash in the future, but up to the present we have made little change in our policy." Mr. Phillips closed his remarks with the following reference to tax reductions: "I am happy to be able to record that during the year there was a slight reduction in income

CANADIANS RANK HIGH  
IN WINNING LBS AT  
CHICAGO STOCK SHOW

Chicago, Dec. 2.—Their pockets bulging with cash prizes and money from sales, and their regal livestock bedecked with ribbons symbolic of championships and other high honors in the animal husbandry world, thousands of North American farmers success at the International livestock exposition today.

Today was the seventh of the exposition, the largest and most successful in its 27 years' history, which will close Saturday. Virtually all important honors have been awarded in the livestock division as well as the grain and hay show.

Of all the contestants and owners of highland stock, valued at \$5,000,000, those from Canada, Iowa, Montana, an Ohio felt the proudest. Iowa led the states for all exposition honors, winning 32 championships and 80 ribbons. Ohio was second with 15 championships and 40 ribbons. Montana farmers showed up for the best versatility in the hay and grain show, placing six grand championships and reserve titleholders.

Canada excelled in the sheep division, winning 51 firsts—almost half of the first place ribbons offered. Among the agricultural colleges Iowa state was in a class by itself, rumping away with more honors than any three schools combined.

Novelist: I notice that you've cut two pages out of the second edition of my book.  
Publisher: Yes, that is to catch the women. We had to advertise it as a 400-page novel reduced to 338.

tax, and that what were deemed nuisance taxes particularly the Stamp tax, were either abolished or very considerably ameliorated, and I am glad to make my acknowledgment to the Finance Minister."

Was Bothered  
With Her Heart  
Had Dizzy Spells

Mrs. Clayton Boy, Milton, N.S., writes: "A short time ago I was greatly bothered with my heart. I could not sleep and would have dizzy spells. I also became so run down I could not do my work, but would just have to sit down.

"I spent a lot of money trying different medicines, but none of them seemed to do me any good. At last my mother advised me to take

"After I had taken a couple of boxes I began to feel a lot better, so I continued their use and to-day I am in perfect health and feel as well as I did when I was a young girl.

"I always recommend Milburn's Heart and Nerve Pills to my friends as I feel that I cannot praise them enough for what they have done for me."

## WEEKLY BULLETIN

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, December 3, 1927.)

## Alberta Oats Again Win Championship

The attention of the grain growing world has again been attracted to Northern Alberta by the success achieved at the 1927 International Hay and Grain Show by Herman Treble of Wembley in the Peace River district. Mr. Treble who in 1926 won both wheat and oats championship, this year missed by only a narrow margin a repetition of his remarkable performance, again winning the coveted championship in oats and reserve championship in wheat. The wheat growing crown this year was awarded to C. Edson Smith of Corvallis, Montana, who showed a fine sample of hard red winter wheat. In addition to his splendid showing in oats and wheat, Mr. Treble won first prize and reserve championship in field peas, second prize in this class going to H. G. L. Strange of Penn, and third to Hans Mayer of Vegreville.

Alberta growers this year won four out of the first sixteen prizes in hard red spring wheat, six out of the first ten places in oats, five out of the first ten places in alfalfa seed, and four out of the first fifteen in timothy seed, as well as first, second and third in field peas.

A summary of Alberta winners is as follows:

Reserve championship in wheat, Herman Treble, Wembley; first prize hard red spring wheat, Herman Treble, Wembley; ninth prize hard red spring wheat, R. A. Meeks, Manville; fifteenth prize hard red spring wheat, H. G. L. Strange, Penn; sixteenth prize hard red spring wheat, Thos. Knowles, Irma, championship in oats, Herman Treble, Wembley; first prize in oats, Herman Treble, Wembley; third prize in oats (with Victory), N. S. Linden, Wynne, fourth prize in oats (with Banner), Nels Linden, Wetaskiwin; fifth prize in oats, H. G. L. Strange, Penn. Reserve championship in field peas, Herman Treble, Wembley; first prize white field peas, Herman Treble, Wembley; second prize white field peas, H. G. L. Strange, Penn; third prize white field peas, Hans Mayer, Vegreville.

## International Awards for University Steers

Eight steers from the University of Alberta, fresh from their sweeping list of victories at the Toronto Royal, have established an almost equally good record in the keen competition from all parts of the continent which they met at the Chicago International.

Placings by the judges at Chicago resulted in the following sixteen awards for Alberta entries:

One championship, three first prizes, two second prizes, three third prizes, three fourth prizes, three fifth prizes, two seventh prizes.

## More British Families Coming West

Word has been received from Ottawa that some 500 additional British families will come to Canada to take up farms in the west under the "three-thousand-family scheme" next spring, announces E. M. Johnston, superintendent of the Land Settlement Board in Edmonton. The majority of these settlers will be placed on farms selected through the agency of the Board.

Alberta Butter Wins at Toronto Royal Exhibits of butter from Alberta creameries again showed up well in competition with entries from all parts of the Dominion at the 1927 Toronto Royal Winter Fair, the sixteen entries winning a total of four first prizes, five seconds and five thirds. Alberta prize-winning exhibitors and their awards are as follows:

Campbell and Griffin, Calgary, 2 firsts, 2 seconds; Vanhalla Co-operative Creamery, 1 first; Woodland Dairy, Edmonton, 1 first, 1 second, 1 third; P. Burns & Co. Ltd., Edmonton, 2 seconds, 1 third; P. Burns & Co. Ltd., Westlock, 2 thirds; P. Burns & Co. Ltd., Holden, 1 third.

## POLICE COURT

(Intended for last week)

W. C. Noble of Edmonton was arrested in that city last week on a warrant issued by Police Magistrate R. M. Angus, at Wetaskiwin, on a charge of obtaining from Jas. C. Macdonald of this city, the sum of \$10.00 cash through false pretences by means of a worthless cheque. Noble was brought to Wetaskiwin, where he appeared before Magistrate Angus for trial. A plea for leniency was made by the complainant, Macdonald, who assured the court that defendant had made full restitution, and asked permission to withdraw the charge. This request was refused by the magistrate, and on a plea of guilty being entered defendant was given six months' suspended sentence. Noble was detained here awaiting the arrival of an escort from Calgary, where he will be taken to stand trial on a charge of embezzlement.

E. C. Kirk was arrested in Edmonton on a warrant issued by Magistrate Angus charging him with obtaining from Stewart Poole of this city, goods to the value of \$86.55, through false pretences by means of a worthless cheque. As the accused and all the witnesses in the case, other than Mr. Poole, reside in Edmonton, Magistrate Angus transferred the case to Magistrate McLeod of Edmonton. Sgt. Broadbent went north to prosecute the case. As Kirk had made full restitu-

tion, together with the costs, Magistrate McLeod gave him six months' suspended sentence.

Eugene Leland of Calgary, paid a fine of \$5 and costs for an infraction of the Railways Act.

Charlie Ross (colored) of near Breton, pleaded guilty to a charge of theft of an overcoat from the premises of Mr. E. E. Sparks, the property of one Wilhelm Bauer a farm hand. Ross was given 30 days' hard labor at the provincial jail.

E. Kelley, of no fixed abode, appeared on a charge of riding the blind baggage from Calgary, and was prosecuted by Investigator Florentine of the C.P.R. He pleaded guilty to the charge and was fined \$5 and costs and ordered to make restitution to the railway company to the amount of the fare from Calgary, or in default of payment 30 days in the provincial jail. Although Kelley was well supplied with funds, he chose to take the 30 days, and was taken north by Sgt. Broadbent.

Alvin Steen, who appeared on a charge of intoxication, was fined \$20 and costs.

The case of J. S. Poole, vs. John Anderson, false pretence through means of a worthless cheque, was dismissed without costs.

Isadore Spence, of Lacombe, was charged with trapping muskrats out of season, and on the evidence of three witnesses was found guilty and fined \$10 and costs, with an alternative of 20 days. Sgt. Broadbent prosecuted.

# The NEW CAR

## INTRODUCING A FINE CAR IN THE LIGHT CAR FIELD

**THIS** entirely new car surpasses the accepted standards of light car accomplishments; sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness. Heretofore the following characteristics have been combined only in expensive cars.

**Speed**—better than a mile a minute.

**Acceleration**—5 to 25 miles per hour in high gear in 8½ seconds.

**Endurance**—this car will travel all day at 50 miles per hour without strain on motor or chassis.

**Riding comfort**—flexible springs and four hydraulic shock absorbers permit comfortable travel at high speed over the roughest road.

**Roadability**—this car's low center of gravity holds it snugly to the road on an unbanked turn even at high speed.

**Power**—in deep, loose sand with the front wheels cramped and from a dead stop, the car will turn in a tight circle, forward or reverse, without effort.

**Effective braking**—the instant response of mechanical, four-wheel brakes with dual control ensures positive braking for any emergency.

**Positive steering control**—A relaxed hand on the steering wheel will hold the car steady in loose sand and over bumpy roads. Turning radius 17 ft.

**Economy**—30 miles per gallon of gasoline, plus the well known economies of Ford car maintenance.

**Appearance**—coach work of pleasing proportions, tastefully finished in an extensive range of color combinations of durable satin lacquer.

**Quietness**—Vibration in the engine is practically negligible. New final drive is exceptionally quiet. Double-ply anti-squeak tape, asphaltum treated fabric and hardwood blocks between body and frame minimize body noises.

## Motor

Make and Model—Ford "A"  
Four Cylinders—Bore 3½"; Stroke 4½"  
Unit Construction  
Pump and Thermo-Siphon Cooling  
Pump, Splash and Gravity Lubrication  
Single Coil Distributor Ignition  
Sliding Gear (3 speed) Transmission  
Multiple 9 Plate Dry Disc Clutch  
Crankshaft—Statically and Dynamically Balanced  
High and Low Speed Jet Carburetor (hot-spot manifold)  
Aluminum Pistons  
Oil Indicator  
Two Blade Aeroplane Type Fan  
Bakelized Fabric Timing Gear  
Carbon Chrome Nickel Alloy Valves  
N. A. C. Rating 24.03 H. P.—Actual  
Developed H. P. 40 at 2200 R. P. M.

Sport Coupe

Coupe

Phaeton

Roadster

**Engine**—At 2200 revolutions per minute the new four cylinder engine develops 40 H. P. This revolution speed is low for such power and sets an entirely new standard for light car speed and acceleration, enduring quality and operating economy.

**Engine lubrication**—Combination of pump, splash and gravity feed thoroughly lubricates all frictional surfaces regardless of road grades.

**Cooling system**—Combination water pump and Ford thermo-siphon system doubly insures ample radiation. Engine warms up quickly but will not overheat.

**Electrical system**—The new Ford designed distributor is placed on top of engine permitting direct connection to spark plugs by means of short bronze bands. The single coil is protected by a waterproof case. Co-incidental lock on ignition circuit is theft proof. The powerful starting motor and dependable generator are both of Ford design.

**Clutch and transmission**—Patterned after the famous Lincoln, these units give an operating ease never before found in moderate priced cars. The nine plate multiple dry disc clutch and the selective transmission are designed to make shifting of gears remarkably easy and simple. Getaway, unexcelled by any car made today, is just one of the many advantages. Three speeds forward and one reverse. All gears are made of heat-treated chrome alloy steel. The only light car in which transmission shafts are mounted on ball and roller bearings.

**Rear Axle**—The axle shaft itself carries no weight as the ¾ floating principle places the weight of the car on the axle housing. Flexible roller bearings minimize rear wheel friction. A Torque Tube drive and spiral bevel gear are additional features.

**Springs**—Transverse semi-elliptic design. Relieved of all driving strain, they perform the sole function of cushioning road shocks. The transverse type of spring helps to prevent a large amount of frame distortion, makes four-wheel brake operation more efficient, gives easier steering and reduces unsprung weight.

**Chassis lubrication**—Alcrite-Zerk pressure system.

## Equipment

Starter  
Foot Accelerator  
One Piece Windshield  
Thin Viscor  
Thief Proof Ignition  
Lock  
4 Hydraulic Shock Absorbers  
Wide Range of Color Options

## Chassis

4 Wheel Brakes—Mechanical Internal Expanding Type with Automatic Equalizer  
Springs—Transverse Semi-Elliptic Drive—Torque Tube Gears—Spiral Bevel  
Rear Axle—Three-Quarter Floating Full Crown One Piece Rnders  
Gravity Feed Fuel Tank  
Ignition Wires Enclosed in Flexible Steel Tubing  
Steering Gear (irreversible)—Worm and Sector Type  
Acorn Design, Nickel Plated Headlights  
5 One-Piece Steel Spoked Wheels  
17½" Steering Wheel  
Alcrite-Zerk Pressure Lubrication Body and Chassis Insulated to Prevent Noise  
Wheel Base 103½ Inches  
Turning Radius—17 Feet  
Tire Size—30 x 4.5  
Road Clearance—9½ Inches

**DID YOU EVER STOP TO THINK**

(By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce)

That the advertising columns are time savers for busy people.

That by looking them over during spare minutes it will take the "guess" out of where to buy.

That in the advertising columns you will find the names of the stores that carry right goods at the right prices.

That the merchant who advertises is always on the alert to carry seasonable goods in stock that will give service to their customers.

That their goods will measure up to their ads.

That in the stores of advertised goods you will find what you want. It will save much time in shopping.

That you will find it a pleasure to shop with them.

That custom rules the buying habit. Get the habit; buy advertised merchandise!

That you should not worry about where to shop; you can save worrying by reading the ads.

The ambition of local merchants is to please. That is why they advertise.

Remember the NAME when you buy

# American Legion Honors Captain

Upper—C. F. "Montroyal" which carried the Legionnaires in war and peace.  
Lower—Section of Legionnaires photographed at Quebec before sailing for Paris  
recently. Lower—Captain H. Sibbons, R.N.R.

A signal honor has been conferred on Captain H. Sibbons, R.N.R.,  
commander of the Canadian Pacific Montroyal, by the members  
of the American Legion who sailed 800 strong on his ship from England  
recently, after the gathering of the Legionnaires in Paris in September.  
On their voyage across the Atlantic to Quebec, R. J. Byers, adjutant  
of the American Legion, department of Michigan, decorated Captain Sibbons  
with the American Legion official medal of the Second A.E.F.

Many of the Legionnaires who journeyed both ways on the "Mont-  
royal" to attend the convention, were carried by this ship to France  
during the Great War and renewed their friendship with the popular  
commander. The majority of the Legionnaires on the peacetime jour-  
ney to France were from the middle west and west of the United  
States.

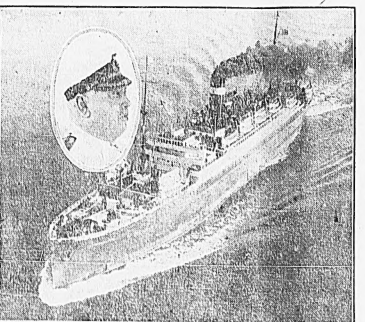

In honoring Captain Sibbons with the official medal, Adjutant  
Byers said:

"Captain Sibbons, an historic pilgrimage has been successfully  
held, and thousands of the best citizens of America, proven to be  
such in action, and proven again in their sincere desire to continue  
that good citizenship by promoting world peace through this pilgrimage,  
now have their faces turned homewards. They are conquerors, con-  
querors of friendship. You, sir, helped guide the first A.E.F. through  
danger-infested seas. You, sir, have again helped guide safely the  
second A.E.F. to a joyous conclusion. It was the comparatively few  
men of your calibre, men who have spent a lifetime on the great  
Atlantic, who made possible that first glorious victory of our Allied  
countries. You, sir, are carrying on in peace-time, just as we are  
carrying on—the soldiers, sailors and marines—whom you have so  
safely carried across and back—first to war and then to peace. You  
are one of us; one of our trusted leaders; one on whom we depended,  
and who took care of us. Sir, I pin the American Legion Official  
Medal of the Second American Expeditionary Force on your breast.  
Only men of proven worth are permitted to have it. In due time,  
when we shall have completed our journey a suitable accompanying  
citation will be forwarded to you. This is the service medal to be  
worn with your uniform on proper occasions."

Sir Henry W. Thornton, Chairman and President, Canadian National  
Railways, photographed at Montreal on his departure for Mexico  
to inspect the Mexican government railways.

# When Winter Comes

Despite the efforts of science the Mighty St. Lawrence turns to solid  
when winter comes. Toward the end of November ships begin to  
worry and count their chances of being "frozen in" for the winter. This  
picture taken from Quebec's famous largest—open-in-the-world bridge shows  
the Ancher-Donaldson liner Letitia passing under, bound from Montreal  
to Glasgow—the last passenger boat out of St. Lawrence this year.  
Inset is of Capt. David Taylor, O.B.E., master of the Letitia.

### AUDITORS' REPORT TO THE SHAREHOLDERS:

We report to the Shareholders of the Imperial Bank of Canada:—  
That we have audited the above Balance Sheet as at October 31st, 1927, and compared it with  
the books and vouchers at Head Office and with the certified returns from the Branches. We have  
obtained all the information and explanations that we have required, and in our opinion the trans-  
actions of the Bank which have come under our notice have been within the powers of the Bank.  
In our opinion the Balance Sheet discloses the true condition of the Bank, and is as shown by  
the books of the Bank.  
The above Balance Sheet does not include money which has been set aside by the Shareholders  
from time to time for the purpose of a Pension Fund.

A. B. STEPHENS, C.A.,  
of Peat, Marwick, Mitchell & Co.  
D. McK. McCLELLAND, F.C.A.,  
of Price, Waterhouse & Co.

Toronto, November 18th, 1927.

## NEWSPAPER LAWS

Excerpts from Newspaper Law,  
printed for the benefit of any reader  
who may have mistaken ideas regard-  
ing same:

1. A postmaster is required to give  
notice by letter (returning the paper  
does not answer the laws) if the sub-  
scriber does not take the paper out of  
the post office and state the reason  
for its not being taken. Any neglect  
to do so makes the postmaster re-  
sponsible to the publisher for pay-  
ment.
2. If any person orders his paper  
discontinued he must pay all arrears  
or the publisher may continue to send  
it until payment is made and collect  
the whole amount whether the paper  
is taken from the office or not. There

- can be no legal discontinuance until  
payment is made.
3. Any person who takes a paper  
from the post office, whether directed  
to his name or another, or whether  
he subscribes or not, is responsible for  
payment.
4. If a subscriber orders his paper  
stopped at a certain time and the pub-  
lisher continues to send it, the sub-  
scriber is bound to pay for it if he  
takes it out of the post office. This  
follows the principle that a man must  
pay for what he uses.

THURSDAY, DECEMBER 8, 1927

THE NEW FORD IS  
NOW ON THE MARKET

The new Ford went on display December 2. Known as Model "A", it replaces the Model "T" which for nineteen years made automotive history, and comprises a line of six passenger models, supplemented by light delivery and truck models.

Pleasing appearance, a wide range of bright color combinations, great power, high speed, flexibility, roadability, unusual rugged, economical operation and rugged, simplified construction are cited as outstanding features of the long-awaited car. Design and construction hitherto peculiar to high-priced machines are said to be incorporated in the new product.

The lines of the new Ford are distinctive. The wheelbase is 102½ inches, and the lower suspension and deeply-crowned, gracefully contoured one-piece fenders are pleasing to the eye and suggest speed and stability. Bodies are of all-steel construction and a new type of one-piece, steel spoke wheel employing a drop-centre

and eliminating the old fashioned rim and rim clamps is employed. A selective sliding gear transmission is used with a multiple dry-disc clutch, and the rear axle is of the three-quarter floating type with spiral bevel gears permanently adjusted and noiseless. Full torque drive which releases springs of all driving strains is featured, and four-wheel, mechanically actuated, internal expanding brakes have been incorporated in the new product. Throughout the design of the new car ease and quietness of operation, great strength and accessibility of all parts have been kept in mind. According to Ford officials the purpose back of the new car is to provide a small car which will incorporate all light car advantages with the features of comfort, speed and safety heretofore peculiar to heavy and expensive machines. This, they confidently assert, has been accomplished in the new Model "A" Ford. The four-cylinder power plant of the new Ford develops 40 horse power at 2200 revolutions. This is practically double the power of its predecessor, but this great increase in power has been effected without sacrifice of economy and it is claimed that the new car will afford thirty or more miles to the gallon of gasoline. This remarkable increase in power is effected through use of a larger cylinder bore, by static and dynamic balancing of flywheel and crankshaft, and by the use of light reciprocating parts. The new motor is practically vibrationless owing to the careful balancing of these parts.

The Model "A" motor incorporates a number of unusual features of de-

sign which have been born of years of experiment. Most of these features make for long life, simplified service and more economical maintenance. Lubrication is a combination of pump and splash systems and cooling consists of thermosyphon and pump circulation of water. The water pump is so designed that it comes into use only when the motor is turning at a fair rate of speed, and overcooling is thus avoided. The motor itself is essentially a low-speed motor, developing its maximum power at 2200 r.p.m. This is consistent with established Ford practices which has aimed at securing a minimum amount of piston travel per mile of road travel, with a resultant minimum of strain and wear on moving parts.

The motor is set in the frame at an angle of 3½ deg. and practically a straight-line drive to the rear axle is thus secured. The nine plate multiple disc clutch comprises four driving and five driven discs which operate without lubrication. A feature of the clutch is that on disengagement it immediately and completely neutralizes the driven plates with the result that the gear shift lever may be snapped across immediately the clutch pedal is depressed without fear of clashing gears. Clutches of this type have hitherto been peculiar to high priced cars.

The transmission departs from conventional light car practice in the use of ball and roller-bearings instead of bushings. These bearings make for more satisfactory operation, smoother performance and longer life. The steering gear is also unique in the light car field, being of the irreversible worm and sector type with the worm carried in ball bearings. Front end weight of the car is also carried on roller bearings which are placed at the top of the spindle bolts, and the result of these refinements is unusual ease in steering.

Transverse semi-elliptic springing is used, and for it Ford engineers claim the following advantages: that the springs contact with the frame at only one point and that in the centre line of the chassis with the result that the chassis is subjected to no twisting strains; that it permits the full torque tube drive; that it reduces unsprung weight to a minimum and improves riding qualities; that the springs have only their natural function of absorbing road shocks to perform; and that danger of uneven application of front wheel brake is avoided because the front axle is held rigidly at right angles to the chassis centre line and there is no possibility of uneven tension upon brake rods. The brakes are of special Ford design and operate on the inner surface of substantial steel drums. All brake parts are cadmium plated as a precaution against rust and each brake is instantaneously adjustable through manipulation of a small adjusting stud on the exterior of each brake drum. Brake pedal or hand lever will apply all four brakes simultaneously. Sixty per cent of the braking effort is applied to the rear wheels and forty per cent to the front wheels.

The new car is completely equipped with five steel spoke wheels, improved method of chassis and motor lubrication, four hydraulic shock absorbers, speedometer, windshield wiper, rear-view mirror, remote door-latch controls. There are six body styles: Tudor, Fordor, Coupe, Sport Coupe, Phaeton and Sport Roadster. Each style will be available in an extensive range of color combinations.

Unusual performance unprecedented in the light car field is claimed for the new Ford Model "A". It will attain a speed in excess of 60 miles per hour and may be held at that speed for long periods without discomfort to passenger or injury to the mechanism. It accelerates at a terrific pace and seems

# Old-Time Christmas Spirit PLUS

## Modern Christmas Service

is OUR aim

We invite you to visit our store and inspect our unequalled assortment of Christmas Gifts

**GERMAN SILVER**—In Vases, Candle Sticks, Salt and Peppers, Smoking Sets, selling at a remarkable low price from **1.00 to 3.50**

SILVER FOX PELTS FROM

ALBERTA TO BE SOLD AT 'PEG

With a contract signed by President W. P. Montgomery and Secretary A. H. Parker, of the Alberta Fox Breeders' association, whereby silver fox furs from the members of the association will be marketed at the fur sale of the Winnipeg Fur Auction Sales Co., Ltd., Alberta is expected to send down one of the largest collections of fox pelts ever sent out of the province for the December sale.

It is estimated that the silver fox furs from Western Canada alone at this sale will run well over the million dollar mark, and the Alberta pelts are expected to rank among the finest received, as fox farmers in this province have had a particularly fine year—Bulletin.

## TROUBLE SIGNS FOR THOSE PAST

40. Bladder Weakness, Nervousness, Headaches, Frequent, Painful, Scanty Urination, Getting-up-Nights

The embarrassing annoyance and genuine misery of Bladder Weakness, often brings "discomfort of old age" to those who really ought to be in the very prime of life.

Countless thousands, perhaps seven out of ten, of folks near middle life are pitiful victims of Headaches, Nervousness, Pains in back and down through groins, frequently hot scanty and painful urination—Getting-up-nights.

While serious, if neglected—it is ordinarily a simple matter to relieve these troubles by the pleasant home use of Dr. S. W. KIDNEY'S URATABS, which have been victorious in thousands of cases, after other treatments have failed.

No matter how serious or of how long standing your condition may be, you can quickly prove the value of URATABS without risk of cost—for any good druggist will supply you on an absolute guarantee of satisfaction or money back. If URATABS bring you quick and certain comfort, you will be greatly pleased. If they do not fully satisfy, their use will cost you nothing. Try URATABS today, and see what a difference they make.

## CITY OF WETASKIWIN

## IMPORTANT NOTICE TO ALL CITIZENS USING CITY WATER

Owing to weather conditions and from some unknown cause, all the city wells have stopped producing the quantity of water required.

A warning is issued that all citizens running water to avoid freezing must stop all waste.

All users must economize and are requested to note that all city water will be turned off each night at 12 o'clock midnight, until further notice.

By order,  
J. E. FRASER,  
City Clerk and Treasurer.

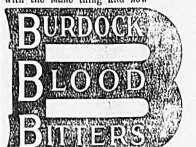

## NEW NORWAY WEST

On Monday, November 22, about 30 friends gathered at the home of Mrs. Joseph Stromberg for a miscellaneous shower in honor of Arlan Beller. The evening was spent in merry-making and a mock wedding, which afforded much laughter for everyone. The beautiful gifts showed the high esteem in which the young couple are held. At midnight, a dainty lunch was served, after which the guests departed, with many good wishes for the young couple.

About seventy relatives and friends gathered at the home of Mrs. E. Persson on Thursday evening and surprised Miss Arlin Beller with a miscellaneous shower. The evening was spent in games and radio music. About ten thirty Arlan was given a spool of thread to wind up, which led to a large box of gifts. After the unwrapping of the beautiful gifts a dainty lunch was served. Following the congratulations, the guests departed for their homes in the wee small hours of the morning.

## WAS AFRAID TO EAT INDIGESTION SO BAD

Miss J. Mathews, 154 North St., Halifax, N.S., writes: "For quite some time I suffered from indigestion and was afraid to eat. I suffered so after. I told my trouble to a friend and she told me how she used to suffer with the same thing and how

relieved her, so I took two bottles, and I will never regret the day I did as I am happy to say I can eat anything and not be bothered with indigestion after."

Put up only by The T. Millburn Co., Limited, Toronto, Ont.

## Here and There

The "Never-Rot" potato, a variety planted in Yarmouth and Digby counties, Nova Scotia, this year, is reported as showing up to its name, coming through flood damage practically unharmed.

United States farmers receive about 15 cents a bushel less for their wheat than Canadian farmers, because of higher railway rates, according to Senator Brown of Iowa, speaking at Washington recently.

The Liard River district in the extreme north of British Columbia can produce excellent crops of grain and vegetables, it is stated by the Department of Agriculture of British Columbia, following experiments carried out in conjunction with the Royal Canadian Mounted Police. Specimens of grain have been received here.

Ocean tonnage to carry 36,000,000 bushels of Western Canadian wheat via the Pacific to the United Kingdom and Europe has been booked for November, December and January. During December alone tonnage for 20,000,000 bushels has been fixed and shipping men believe that a hundred vessels will be required for this.

"Indian Golf" will be a novel form of the Royal and Ancient game to be introduced this winter at the Chateau Frontenac, Quebec City, for the enjoyment of the winter sports tourists. The game will be played on skis and snowshoes and over a course laid out in the snow. Targets will replace holes and bows and arrows will take the place of golf clubs and balls.

The Poultry Department of the University of British Columbia announces the sale of a white Leghorn hen for \$500. She is not the famous Hen No. 6, but F. 319 and was exhibited at Ottawa last summer. Last year she laid 305 eggs in 305 days; and as she weighs just four pounds her purchase price was \$155 per lb. F. A. Sansome, of Greenwich, Conn., was the purchaser.

The Government's final crop estimate is now: Wheat, 444,000,000 bushels, as compared with an estimate of 468,000,000 in September and last year's actual yield of 409,000,000; oats 482,000,000 bushels as against September's estimate of 502,000,000 and last year's actual yield of 383,000,000. Barley is put at 98,000,000 bushels as against 90,000,000 last year and rye at 16,000,000 bushels against 12,000,000 last year.

The fourth of the five new freighters being built for the Canadian Pacific Steamships was launched recently at the yards of Barclay, Currie & Co., Glasgow. The S.S. Beaverhill will make her maiden voyage from Glasgow to Saint John on March 10, 1928. With her four sister ships the Beaverhill will be on a weekly service between Canadian ports and London, Hamburg, Harve and Antwerp. She will be an "all-weather" vessel with a speed of 14 knots and is built to the highest class of Lloyd's specifications.

His Excellency Lord Willingdon, while attending the Royal Winter Fair at Toronto recently, noticed the entry of a stallion under the name "Lord Willingdon." His Excellency expressed a desire to inspect the animal which was paraded by its owner, W. J. McCallum, of Brampton and Regina. The two-year-old Clydesdale was purchased by the owner in Scotland last summer and brought out on the Canadian Pacific "Bolingbroke" in October. The animal purchased for \$10,000 and was included in a shipment of over 100 pure-bred animals.

## HOW TO TELL DIRECTION

Various methods may be used, some more certain than others.

When travelling in unfamiliar country, it very often becomes necessary to determine direction. Most people are able in a general sort of way to do so in the daytime by means of the sun if it is shining or at night speaking more particularly of the northern hemisphere) by means of the "North Star."

Some people seem to possess the faculty of telling direction by means of the sun with a remarkable degree of accuracy. To those who have difficulty in this regard, the well-known method of making use of the watch in connection with the sun may be employed. This is effected by holding the watch level and pointing the hour hand at the sun and accepting the line midway between it and the figure 12 on the dial as the due south direction.

This will not give direction accurately but will be good enough for most practical purposes. The sun appears to go around the earth in a clockwise direction (to those in the northern hemisphere) making the complete circle in twenty-four hours. The hour

## SUFFERED FOR YEARS CONSTIPATION Was The Trouble

Mrs. Wm. J. McCulloch, Woodstock, Ont., writes:—"I have been a sufferer for years from constipation. I tried everything I could think of but nothing seemed to do me much good. After my first baby was born my husband got me a box of

and they did me so much good I took three more, and they certainly are excellent pills.

"I have recommended them to different friends, and they all think they are good."

"My sister won't be without them in her home."

Milburn's Laxative Pills are 25c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## AN ASSURANCE TO ALL FORD OWNERS

We wish to assure the Ford owners of this community that as long as they drive their Model T cars, a full stock of genuine parts will be available, and expert Model T service will be maintained. This applies not only in our own garage, but throughout the Dominion-wide Ford dealer organization.

The New Car which will soon be on display in our showrooms is the ultimate expression of automotive engineering and design made possible by the 16,000,000 Ford cars that have gone before it.

## CONFIDENCE IN CANADA'S AGRICULTURAL AND INDUSTRIAL DEVELOPMENT

Vice-President and General Manager Imperial Bank of Canada Discuss the Prospects of Business with Confidence

### STATEMENT PRESENTED TO 53rd ANNUAL MEETING OF SHAREHOLDERS—BEST IN BANK'S HISTORY

Sir James Woods, the Vice-President, in his annual report to the shareholders, said in part: "Evidence of the general growth and prosperity of Canada may be observed on all sides. In 1914 the insurance policies current in Canada amounted to less than three billion dollars, while today they exceed nine billion dollars. Even after allowing for differences in values it is plain that our physical assets have doubled since the outbreak of the war. During the same period deposits in chartered banks and Trust Companies and elsewhere issued by Trust and Loan Companies have increased from \$1,000,000,000 in 1914 to \$2,000,000,000 in 1927. In 1914 Canadian citizens owned no Government securities; today a large percentage of Dominion and Provincial Government bonds are held by our own people."

**Farmers in Good Position**  
A provisional statement of the yield of grain crops in Canada released by the Dominion Bureau of Statistics on the 11th inst., gives: Wheat, as 44,000,000 bushels; against 40,000,000 bushels for 1926; oats, 42,000,000 bushels, against 37,000,000 bushels for 1926; flaxseed, a falling off of about 20 per cent., while the yield of other grains is approximately the same as last year. Although the acreage sown this year was 40,416,297 acres, as against 40,815,041 in 1926, the yield per acre was greater, wheat averaging 1.03 bushels per acre in 1927, against 1.28 bushels in 1926; oats, 1.12, against 1.07; flax, 2.15, against 1.61 in 1926. Four good crops in succession have put the farmers of Canada in an excellent position in 1927.

Although field crops are the backbone of agriculture, there are surprising returns from the minor pursuits. Take poultry farming, for example, the production of eggs in Canada last year amounted to 25,000,000 dozen.

Major products contributed \$7,000,000 to our national wealth; honey, \$5,000,000; tobacco, \$10,000,000; and the blueberry, which grows wild, yielded our last year's exports by \$33,000. The blueberry industry shows a revenue of \$15,000,000. The demand for Canada's products is increasing to grow, and is practically world-wide, and the work of our Governments along these lines is reflected in the excellence of our own crops.

Farm animals rank third in order of importance among our farm products. Field crops coming first, dairy products second.

**Trade Statistics**  
This year the Government of Canada provided \$100,000 to cover the cost of a trade study of the British market. This seems to be very timely, for, while Britain is our best customer, the demand for our products from year to year has been very erratic. In 1920 we supplied 27 per cent. of the bacon imported by Britain, as against 11 per cent. in 1926. Similarly, our share in the egg market fell from 11.4 per cent. at British imports in 1920 to 5.5 per cent. in 1926. In 1914 we supplied 48 per cent. of the cheese, in 1920 41 per cent., and in 1926 35 per cent. of the butter. Studies undertaken show how to hold our markets and gradually increase our share, the money will have been well spent. Exports of Canadian tobacco to Britain have increased 700 per cent. during the last four years as a result of the preferential trade agreement. This is reflected in the rapid extension of tobacco farming in Western Ontario.

**Fuel and Water Power**  
In Central Canada, where most of our factories are located, we have no coal fields. For some years the Governments of Canada have given serious attention to the possibility of making the coal of Nova Scotia and Alberta available for the parts of Ontario and Quebec which are most dependent on imported coal. The advantage to Canadian industry, to the coal-mining industry and to the railways of Canada, of access to the undertaking, would be very great. The project should be very early adopted. Canada has a most promising record in the development of 2,500,000 horsepower, as compared with 1,000,000 horsepower in the United States, which has more than twelve times our population. The Falls and Rapids which hatched our forefathers by obstructing fire trails on the water, contain a wealth of which they did not dream.

**Our Mineral Wealth**  
In 1926 the production of the Canadian mine was valued at over \$2,000,000,000, as compared with \$86,000,000 in 1907, and \$200,000,000 in 1925. Though the increased value of 1926 over 1925 is only about 6 per cent., the increase in the quantity produced is much greater. This is due to the lower average price prevailing in 1926 for silver, copper, lead and zinc.

With the exploitation of the established mines at Sudbury, Collin, Porcupine and Kirkland Lake, we note with satisfaction the development of new mining centres. Coal and zinc in the Sudbury basin, copper at Kirkland Lake, and copper and silver at Porcupine. Beyond all these are the regions in which the prospectors, the pioneers of the industry, have been at work.

As mining developments have such an important bearing on almost every other industry in Canada, we must concentrate on the success of the industry and endeavor to extend all reasonable aid to those engaged in the discovery, development and mining of the treasure hidden within the earth.

**A Bright Future**  
This is the Diamond Jubilee of Confederation. The articles written by our journalists, covering the past sixty years,

are full of thrills and romance, but really the temporary absence of Mr. Pike Haveland, who is taking a well-earned rest, addressing the shareholders, said in part: "Evidence of the general growth and prosperity of Canada may be observed on all sides. In 1914 the insurance policies current in Canada amounted to less than three billion dollars, while today they exceed nine billion dollars. Even after allowing for differences in values it is plain that our physical assets have doubled since the outbreak of the war. During the same period deposits in chartered banks and Trust Companies and elsewhere issued by Trust and Loan Companies have increased from \$1,000,000,000 in 1914 to \$2,000,000,000 in 1927. In 1914 Canadian citizens owned no Government securities; today a large percentage of Dominion and Provincial Government bonds are held by our own people."

**General Manager's Address**  
Mr. A. E. Phillips addressed the meeting as follows: "The bank has had a most successful year. The bank not only enjoyed a reasonable increase in its business, but its earnings and growth have been greater than in any former year, certainly since I became General Manager."

**Strong Liquid Position**  
The total assets approximate \$139,000,000, the growth being some \$7,000,000, or at the rate of over \$500,000 a month. The profits, which are shown at \$1,385,361.55, are also the highest that have ever been shown by the bank, and as usual, have been computed after writing off anything but a real or double nature, and making full provision for all contingencies of every sort and kind. Out of the profits have been provided the usual \$1,000,000 of 12 per cent. and a bonus at the rate of 1 per cent.; the usual contributions to the General Fund, and the same as last year, and also provision for Dominion Government taxes (including a reserve for the current year's income tax), \$100,000. \$2,000,000 has been written off Bank Premises Account. After these deductions we are able to carry forward \$1,285,361.55, a sum slightly in excess of the balance brought forward from the 1926 account.

**Deposits High Record**  
Last year we reported our deposits in excess of \$100,000,000 for the first time. This year they are \$109,044,019, an increase of roughly \$9,000,000 for the year.

Turning to the asset side of the statement, Dominion notes and foreign currencies on hand amount to nearly \$11,575,000. Add to this the deposit in the bank's own reserves, cheques on hand, balances due by other banks in Canada, a total cash amounting to \$10,000,000, and \$28,000,000, which equals 22.2 per cent. of the bank's liabilities to the public. Our loan portfolio, consisting of Dominion and Provincial Government securities and other readily realizable assets, such as Call Loans in Canada and New York, Loans to Manufacturers, Merchants, and the Municipalities, and so on, all of which can be readily classed as immediately liquid, amounts to \$46,000,000, an increase of \$6,000,000 for the year, and when added to the cash on hand, loan portfolio, and other liquid assets, equal to 62.18 per cent. of liabilities to the public.

**Current Loans**  
The Current Loans, at slightly over \$55,000,000, are practically unchanged from last year. We would like to see this department of our business a little larger, but satisfactory additions to the Current Loans are hard to obtain, the growth over the whole of Canada for the year ended September being only 8 per cent. Our own Call Loans in Canada showed an expansion of \$1,500,000 during the year, an increase of 15 per cent. The loans in Ontario, and at Maryborough and Belleville in the Province of Alberta, the branch at Sparta, Ont., has been closed. We now have 157 branches.

**The Staff**  
The staff consists of 1,201 officers. The growth of the bank necessitates a constantly growing staff. The staff during the year has, in any event, been more efficient than ever, and I have much pleasure in again testifying to their ability.

**Our Shareholders**  
The shareholders of the bank now number 2,267, compared with 2,257 a year ago, an increase of 10. Although the number of American investors is considerable, the actual number of shares involved is far from being of great consequence. It would appear, however, that if the Canadian banks continue to prosper, the stock will be more and more in demand for their shares from the other side of the line, and Canadian shareholders need not be in a hurry to dispose of their holdings.

**Control Speculation**  
Viewing general conditions as affecting the bank's business, I need not say that the present favorable state of affairs will not continue for another year, and perhaps for several years to come. There are some elements, however, in the situation which might easily become dangerous. I refer to the unlimited amount of speculation that is going on in the stock market. For our part, although we are quite willing to assist legitimate investment, and even to make a few speculative loans, we are doing everything we can to restrain and control the situation, and I believe that no other banks are following a similar course.

**Waste in an Auto Factory**  
This factory conducts the anti-waste campaign. Its duty is to reclaim materials and either to adapt them to the factory's own requirements, or to the factory or to dispose of them in the open market.

Lumber is one of the materials which is used in large quantities for shipping purposes. All wooden boxes coming into the plant are inspected by the salvage department and such no value. Accordingly, the greatest caution is exercised to avoid waste in one of Canada's popular-priced automobile factories.

The general stores department of

to serve again without rebuilding. However, all that is required is reasonable care, proper tools and a modicum of skill.

Boxes and wooden braces, such as shipments against moving about in the houses used in box cars to safeguard shipments against moving about in the cars, crates, etc., and all wood not suitable for use without treatment, goes to the lumber salvaging gangs who work close to the receiving platforms in the different plants. One of the first things to be done is to break up crates, boxes, etc., and extract nails. Each worker is provided with two wrecking bars, and a special steel maul-pulling bench has been designed that simplifies the work and helps the men to do their work quickly. The workman does not use a claw hammer to draw the nails and is not confined to the limited leverage which a hammer handle affords. By this system, using the stationary claws, he has the length of the piece from which nails are to be removed to serve as leverage. Six-inch nails are drawn from four-inch hardwood with comparative ease.

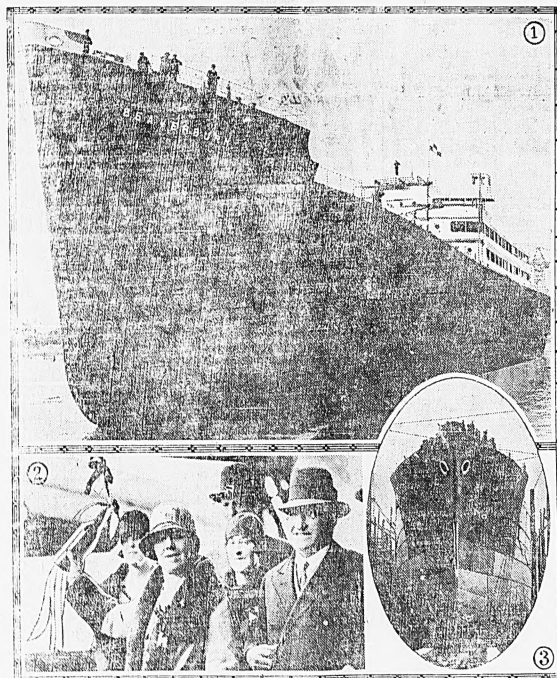

As a nail is drawn it falls into a chute which carries it to a container. Nails are sold for scrap metal.

As an instance of the economy effected through reclaiming all wood from containers, shipping braces, etc., the fact may be cited that all the wood used to build shipping centers for cars is reclaimed box car shipping braces. In view of the large number of motors shipped yearly, this alone represents a saving of a considerable sum. Sawdust is salvaged too and used for packing, a purpose to which it is very well adapted.

Cartons coming into the factory are not salvaged in cartons but are reclaimed and used for packing purposes, replacing excelsior and new corrugated board. The salvage of cardboard alone represents some twenty to thirty carloads per annum.

The work of the general stores department in effecting savings in the plant is not limited to the above. In the department of other departments which are always striving to discover new, better and more economical methods of procedure. An instance of this is the substitution of spruce for southern pine in building the double container. This was effected and at the same time, an improved container was procured. The fundamental rule of salvage is to permit nothing to go to waste, but the methods of conservation, while broadly similar, must be worked out in details to suit the peculiar requirements of the individual industry.

## Canadian Pacific Augments Ocean Cargo Fleet

1. U.S.S. "Beaverhorn" taking the water. 2. Mrs. E. B. Forester about to christen the "Beaverhorn". With her is Captain Gillette (right), and Sir John McArthur Brown in background. 3. S.S. "Beaverdale" sliding down the ways.

The market growth of ocean trade between Great Britain and Canada via the St. Lawrence route has prompted the Canadian Pacific, in their building estimates for 1927-28, to augment their fleet of freight steamers with five modern twin-screw cargo vessels. The new ships will be of the "Beaver" class and will represent the highest type of express steamer to be used in maritime service from London and continental ports, working strictly to schedule and ensuring definite arrival dates.

Three of these vessels have been launched, the "Beaverhorn" on September 27, at Dumbarton, Scotland, and the "Beaverdale" the following day at Newcastle-on-Tyne, England, and the "Beaverford" on October 27. Launching of the remaining two ships was scheduled to take place shortly afterwards.

These five vessels constitute five of the ten ships under construction for the Canadian Pacific, the others being four 20,000-ton ocean passenger liners of the "Duchess" class and the tenth the "Princess Elizabeth," to be placed in the Pacific Coast service of the Company. The ten ships will comprise a total gross tonnage of 155,000 tons and will cost approximately \$25,000,000.

The new freighters will be operated out of Montreal, in summer, and Saint John, in winter, to London and Continental ports on a weekly service. Their speed will be 14 knots, maintained in all weathers, and the voyage should be made in 2 1/2 days. Normally the steamers will carry a deadweight of about 10,000 tons or a draft of 27 ft., but should the need arise, as much as 15,000 tons may be carried on the maximum load draft.

The principal dimensions are: Length or water-

## ADVICE TO MOTHERS

(By a Red Cross Nurse)  
As a nurse, my attention is frequently drawn to those children who are not receiving the care and training necessary for good health. May I here draw your attention to a few facts:  
"Train your child from the moment he is born, please do not start him on a road of irregularity. In this way you are laying up all sorts of trouble for yourself, and rearing your child's health, and perhaps its health, regularity is the secret of success in child raising as in all the sciences."

1. Bath your baby regularly night and morning.  
2. Feed him regularly by the clock, as per doctor's instructions, every three or four hours.  
3. Put him to bed in a quiet cool room, window open, without light, and close the door.

4. After the child reaches the age of one year, regularity is just as important then as during infancy. Try to picture that this little child is being molded into a habit of brain development, action, speech and character. Do not spoil him through carelessness, ignorance or over-indulgence.  
5. Baby cries when he has indigestion from over-feeding or improper feeding. When pins are pricking him. When he requires attention. When he has perhaps been lying too long in the one position, or insufficient feeding.

Do not boast that "Baby never goes to bed until 11 or 12 p.m." "Baby wakes up on every morning at three o'clock and won't go to sleep until six o'clock." There are times when a baby will wake during the night, perhaps he requires attention or a drink of water, but that is no reason for the fond parents turning on a strong light by his bed, talking to him and finally taking him into bed with them. If it is done tonight, tomorrow night the child cries it again, and thus many well behaved babies are spoiled.

Remember that habit formation is the all important factor in the training of a child. A primary tendency in all children is imitation, and the parents may be directly responsible for certain characteristics of their children.  
Books on the care of children can be obtained free of charge, by applying to the Canadian Red Cross Society, 408 Civic Building, Edmonton, Alberta.

"Dad, I need a new hat."  
"But you go without a hat."  
"Yes, but I must have a hat to go without."

"Dad, I need a new hat."  
"But you go without a hat."  
"Yes, but I must have a hat to go without."

One teaspoonful of Gillex to a gallon of water takes away most of the drudgery of household cleaning.

### SUDDEN DEATH OF WILBUR WESLEY DINNEY

The funeral of the late Wilbur Wesley Dinney, aged 35 years, 8 months and 19 days, whose sudden death occurred in the hospital in Wetaskiwin on Saturday, December 3rd, was held on Tuesday afternoon, Dec. 6, from Pinyon's hall, Millet.

A private service was held at the home at eleven o'clock, the immediate family being present, and the public service conducted by Millet Lodge No. 145, I.O.O.F., followed at 2:30. Rev. L. R. Macdonald of Millet United church, conducted the services. During the service, Mrs. Percy Aikens, Fred Higginson and J. R. K. Graham rendered the trio "Face to Face."

The many beautiful floral tributes told of sympathy for those so deeply bereaved and of sorrow for the passing of one so well known. Floral tributes were from the following: Mr. and Mrs. Leo Gatz, Walter Miller, Phillip Fraser, the Basketball Girls, the Ladies' Aid and Official Board of the United Church, Millet I.O.O.F. Lodge, Mr. and Mrs. A. P. Mitchell, Mr. and Mrs. Yellow, Walter Smith, Mr. and Mrs. C. Bristow, Mr. and Mrs. Keenan and family, Aunt Kate, Mother and Family, Wife and son Bruce, Mr. Burns and Mrs. A. Graham, Mr. and

### THINK IT OVER!

The man who seeks only his own good is sure to miss it; the world was not built that way. Our good lies in seeking the good of others.

### PRESENTATION TO BRIDE-ELECT

Another shower for a bride elect, presaging an interesting event of the near future, was given by Mrs. Howard at her home in Millet in honor of her grand daughter Miss Phoebe Gray whose marriage takes place this week. The gift laden basket was borne into the room by little Misses Nellie and Joy Gray and acknowledged in a little speech by Miss Gray.

After a pleasant hour over the tea cups and dainty luncheon, the happy occasion was ended.

Those present were Mesdames Atkins, West, Moon, Peacey, Short, Higginson, Rowley, Carney, Garbutt, Scott, P. Aikens, McDonald, Pinyon, Howard, Misses Adelaide, May, Nellie and Joy Gray and Lola Dugger. Miss Gray was the recipient of many beautiful gifts.

### WESTERN FAIR DATES

At a meeting held this week in Ottawa, the following western fair dates were set:  
Calgary, July 9-14; Edmonton, July 16-21; Regina, July 30-Aug. 4; New Westminster, Sept. 3-8.

**Children's Colds**  
Best Treated Externally  
That's why modern mothers prefer Vicks—It cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:  
(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;  
(2) It "draws out" the soreness like an old-fashioned poultice.

**\$15,000<sup>00</sup>**  
in cash prizes for a  
Slogan about Wood!

The Trade Extension Committee of the National Lumber Manufacturers Association wants a slogan about wood.

The contest is open to everybody. All the information you need is in a free book, "The Story of Wood," which contains the Official Blanks on which all Slogans must be submitted.

First Prize . . . \$5,000.00  
Second Prize . . . 2,000.00  
Third Prize . . . 1,000.00  
Four Prizes . . each 500.00  
Fifty Prizes . . each 100.00  
(In case of tie, the full prize to each)

Remember—these slogan contest prizes are hardly ever won by professional writers or technical experts. Nearly always the winners are people who never expected to win. They just hit on the simple

way to express the big central idea. You can do that as well as anybody.

This office is Official Headquarters for the Lumber Slogan Contest in this locality.

Don't put it off. Come in for your free copy of "The Story of Wood" today

\*\*\*It's not too late to order your Christmas Cards at The Times office. Delivery can be made in five days.

"OPERAFILM"—THE BOHEMIAN GIRL

The famous "Operafilm" production of Balf's great opera "The Bohemian Girl," is not tabbed opera. It is the presentation of this famous opera, in its entirety, with a strong cast of solo artists from the National Opera Company, and a chorus, blended in with the famous British film, in which are featured a strong cast of legitimate stage actors and actresses, headed by the beloved Queen of the stage, Ellen Terry. Wetaskiwin is certainly honored by a visit from this distinguished opera company, and it is to be hoped that all music lovers and film fans will turn out in large numbers to hear their delightful treat and glorious musical selections, at the Angus Theatre, for one evening performance only, Thursday, Dec. 8th, at 8:15 p.m.

WANT AMUSEMENT

TAX REDUCED

The movie picture and show theatre owners, in meeting at Calgary a few days ago, inaugurated an effort to abolish or reduce the provincial amusement tax. The theatre owners point out that if exemption is given up to say 50-cent tickets at the present time, the burden will be removed from those now producing the bulk of the tax. Pictures have their educational as well as amusement value. The average family in Alberta cannot afford the prices charged for the big shows, the owners claim. They are compelled to find their amusement in the medium picture theatres, and the tax has been a serious consideration for the fathers of large families.

The general feeling throughout the province, the owners declare, is that the tax should go entirely, but a substantial reduction would, at least, be a step in the right direction.

The Times invites the cooperation of residents of the country districts. Correspondents from districts not now represented in this paper are requested to write in for correspondence paper and particulars.

## COMMUNICATION

We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.

To the Editor of The Times:

Dear Sir:

With your kind permission I wish to make a statement regarding a case of mine at the local hospital which has been incorrectly reported in the district to be diphtheria.

My diagnosis, based upon the history of the case, observation and clinical examination, was that it was not diphtheria or contagious.

Three swabs of the case, sent to the University of Alberta on different days, were all reported negative. If present, the report would be marked positive. If absent it would be marked negative. If in doubt it would be marked question.

This, therefore, was not a case of diphtheria since before going to the hospital or while in the hospital.

I am, yours respectfully,

T. B. STEVENSON.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Having been nominated as an aldermanic candidate at the election to be held on Monday next, I respectfully solicit your vote and influence. If elected, I will do all in my power to keep the expenditures of the city at the lowest possible point, consistent with efficiency.

Yours respectfully,

W. H. COOK.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

I have consented to become a candidate for alderman at the coming city election. In return for your support, which is cordially solicited, if I elected, shall devote such time as may be necessary and use such ability as I may possess to protect the interests of all people and to ensure a sound, economical and progressive administration.

Yours respectfully,

BRUCE D. HOWATT.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen,

As I am a candidate for re-election for the office of alderman for another term, I cordially solicit your vote and influence on Monday next. During the last two years, I have conscientiously served you to the best of my ability, and assure you I will continue to do so for another term if elected Monday.

Yours truly,

JAS. SCOTT.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

As I am candidate for alderman and as it is impossible for me to see you personally, I take this means of respectfully asking for your support at the poll on Monday next. If elected, I will diligently work for the best interests of Wetaskiwin, keeping in mind that the strictest economy must be practiced.

Yours respectfully,

FRANK H. BLACKWELL.

TO THE ELECTORS OF THE CITY OF WETASKIWIN

Ladies and Gentlemen:

Having yielded to the urgent request of a large number of friends, I have consented to be a candidate for alderman and respectfully solicit your vote on Monday next. During the years I served on the Council board I worked for the best interests of the city, and if returned on Monday, I will again serve you to the best of my ability.

Yours truly,

HEINRICH BROWN.

## CANADA NO GOOD FOR THOSE WITHOUT PEOP

Brandon, Man., Dec. 2.—A prediction that Canada would have a population of 23,000,000 people by 1960, and the declaration that the dominion does not want parasites, because "if there is any country in the world where men cannot live without working, it is Canada," featured an address delivered by Premier James G. Gardiner of Saskatchewan, at a Canadian Club banquet here Tuesday night.

Mr. Gardiner graphically outlined the future development of Canada, and stressed the urgent necessity of increasing the country's population. He stated that a great many of the men who had made a success of farming in Saskatchewan had come to Canada early in life without farming experience.

## MAY DEMAND A SHOWDOWN

Winnipeg, Nov. 22.—In grain circles it is gossip that the western bloc in Parliament proposes as the approach-

ing session to force an amendment to the grain future statute. At present it is illegal to trade in grain futures unless those offering to sell intend to sell those offering to buy intend to purchase. But since the proof is chiefly what is in the minds of two persons to a future deal, the law is a dead letter. The progressive bloc is reported to be favoring a law similar to that which controls grain marketing in the States by which a representative of the federal agricultural department has the authority to inquire specifically into details of any transaction pertaining to the grain trade, particularly in times of great stress in the market. Old-timers in the trade, the Edmonton Journal's special, ridicule the idea that political magic can be injected into the market methods now in vogue. They insist that this law in the States has handicapped trading there and driven many engaged in the grain business to for their trading here rather than in Chicago.

## LINE OF CONSERVATIVE POLICY

Toronto, Nov. 8.—Hon. Dr. R. J. Manion, M.P., of Fort William, made three suggestions for the future success of the Conservative party in Canada in an address to the Toronto Conservative Business Men's Club yesterday. They were:

"We must have greater general organization than we have had in the past."

"We must obtain much greater press support than we have had. This is particularly true in the province of

Quebec and in the prairie provinces: "We must remember that our young men of today are our statesmen of tomorrow. We must do more to reach our young people, to show them that it is their duty to love their native land when the clouds hang low as well as when the sun shines bright; that this country is not only worth dying for in war, but worth living for in peace. Young men's Conservative clubs would help in this."

"And finally," said Dr. Manion, "having chosen R. B. Bennett as our leader we must co-operate with him in every way if success is to crown his efforts." "I believe the Conservative party has been too honest in the past," was one of Dr. Manion's statements.

"Our party in the past has been too honest in strictly defining its position and policy on controversial and sectional questions," he explained.

## OIL LANDS SOLD IN \$20,000 DEAL

Calgary, Nov. 30.—Two hundred acres of oil lands located in section 20, Township 19, range 2, West of the Fifth Meridian, have been sold by the Alberta Pacific Consolidated company to the Home Oil company for \$200,000 and a 20 percent interest in the Home company equalling 150,000 shares of Home Oil stock, according to an announcement made by A. G. Clarke, secretary-treasurer and manager of the Alberta Pacific Consolidated today.

"Some of the people who dine here," said the hotel proprietor, "seem to imagine that knives and forks are a sort of medicine—to be taken after meals."

## City Council

(Continued from Page 1)

amounting to \$107.75 was also written off.

The following accounts were passed for payment: General, \$167.24; electric, \$277.65; water, \$32.43; supplementary payroll, \$110.55.

The report of the Fire Chief re fires for the month of October was received and the fire payroll of \$62 was passed for payment.

The report of the Chief Constable for November was received and the account for prisoners meals of \$12.00 ordered paid.

Friday, the 9th December at 8 p.m. was fixed for the time and date for the annual ratepayers' meeting to be held in the U.F.A. Hall.

Mayor Montgomery reported that three iron cells had arrived and sug-

gested a way of placing them that he thought would be to the best advantage.

Alderman Marshall complained that the present fire alarm was not being heard by certain members of the fire brigade and inquired as to siren being more effective.

By law 588 for the appointment of a Returning Officer for the coming elections was read three times and passed.
